

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. MISCELLANEOUS QUESTIONS.

Have the books of the company been kept open after the close of business December 31 last for the purpose of making any entry that affects this statement? Answer. No, except to include reports the cash balances for which were received by the company before midnight of December 31st.

Is there a loading or margin for expenses over the net premium on all policies according to the actuaries' 4 per cent. table? Answer. Yes.

Is any surrender value promised in excess of the actuaries' 4 per cent. reserve? Answer. Yes—on a few tontine-dividend policies, and on policies issued since January 31st, 1899. If so, what amount therefor has been included in liabilities, and where? Answer. \$48,104 on tontines—the balance \$378,554.00 also included in No. 14.

What proportion of premiums on policies issued by the company may be taken in notes, or other form of lien, on the policies. Answer. On first year's premium. Nil. On renewal premiums, 33 per cent. on policies issued prior to 1872, after 1872 not to exceed one annual premium.

Is the business of the company conducted upon the mutual, mixed, or strictly proprietary plan? Answer. Mutual.

Does any officer, director or trustee receive any commission on the business of the company? Answer. One trustee acts as sub-agent and receives only the usual sub-agent's commissions.

MISCELLANEOUS QUESTIONS.

Have the books of the company been kept open after the close of business December 31 last for the purpose of making any entry that affects this statement? Answer No.

Is there a loading or margin for expenses over the net premium on all policies according to the actuaries' 4 per cent. table? Answer. Yes.

Is any surrender value promised in excess of the actuaries' 4 per cent. reserve? Answer. No, excepting on policies under which the company carries a 3 per cent. reserve liability. If so, what amount therefor has been included in liabilities and where? Answer. The entire 3 per cent. liability is included in item 1 of liabilities.

What proportion of premiums on policies issued by the company may be taken in notes, or other form of lien, on the policies? Answer. The company does not accept notes on new premiums but one-quarter of a premium can remain a lien against the policy.

Is the business of the company conducted upon the mutual, mixed, or strictly proprietary plan? Answer. Mutual.

What proportion of the profits of the company may be paid to stockholders for use of real or guarantee capital? Answer. Six per cent. semi-annually.

Does any officer, director or trustee receive any commission on the business of the company? Answer. No.

MISCELLANEOUS QUESTIONS.

Have the books of the company been kept open after the close of business December 31 last for the purpose of making any entry that affects this statement? Answer. No.

Is there a loading or margin for expenses over the net premium on all policies according to the actuaries' 4 per cent. table? Answer. Yes.

Is any surrender value promised in excess of the actuaries' 4 per cent. reserve? Answer. Policies issued prior to 1900 have surrender values based on, but which never exceed, the Am. Ex. 4 per cent. reserve. As the reserve fund computed on the actuaries' table is greater than if computed on the Am. Ex. table, no extra liability exists on account of such value. Surrender values of policies issued since 1899, are based on the Am. Ex. table and 3 per cent. interest, and often exceed the actuaries' 4 per cent. reserve.

If so, what amount therefor has been included in liabilities and where? Answer. \$97,764 in item 14 of non-ledger liabilities.

What proportion of premiums on policies issued by the company may be taken in notes, or other form of lien, on the policies? Answer. On first year's premiums, 20 per cent; on renewal premiums, up to the cash surrender value.

Is the business of the company conducted upon the mutual, mixed, or strictly proprietary plan? Answer. Mutual.

What proportion of the profits of the company may be paid to stockholders for use of real or guarantee capital? Answer. No capital stock.

Does any officer, director or trustee receive any commission on the business of the company? Answer. No.

MISCELLANEOUS QUESTIONS.

Has the company made the deposit with the treasurer of its home state, required by the provisions of Sec. 2, Ch. 270, Laws of 1899, of Wisconsin? Yes.

What was the amount of such deposits December 31st, 1900? \$31,200.00. Were the funds accumulated from the payments made by policy-holders or members, not insured on the stipulated premium plan, used in making such deposits? No.

Does the company provide for the payment of surrender values in cash, paid up or extended insurance? Yes. Is the amount of reserve computed and to be set apart for such values plainly stated in the policies issued? Yes. Is the expense element of the premium a fixed amount and stated in the policies issued? Yes.

Does the company keep individual accounts with its policy-holders, not insured on the stipulated premium plan? Has no such policies.

What is the maximum and minimum amount of the policies or certificates issued on any one life? Maximum, \$5,000; minimum, \$500.

Is any part of the mortuary or reserve funds, assessments or premiums, used for the purpose of paying any expenses? Yes, \$796.36 for taxes thereon and legal service to defend that fund.

What was the expected mortality during the past year, on mean amount of insurance in force, according to the actuaries' table of mortality? \$11,218.03.

Are the officers and directors elected by the members? Directors, yes; officers by directors annually. Are notices of election sent to members? No. Are proxies contained in applications? No.

Are there any members or persons having any proprietary or preferred interest in the company, or receiving any part of the expense fund as consideration for money advanced or for guarantee of payment of expenses? No.

Is a medical examination required before issuing a policy or certificate to applicants? Yes. Are policies or certificates issued, or assignments allowed, to persons other than the families, heirs, relatives and dependents, or actual creditors of the member? No.

Has the company paid all its death claims in full, and has it the ability to pay its outstanding claims in full? Yes.

MISCELLANEOUS QUESTIONS.

Does the association issue limited or advance payment policies or policies of any kind containing cash surrender, extended or paid up insurance features? No.

Does the association keep individual accounts with its policy holders? Yes.

What is the amount of reserve or emergency fund held by the association on account, or to the credit of, Wisconsin policy holders? No separate record of states kept.

Give amount of entrance fee, and how paid. The entrance fee is equal in dollars to one-half the member's age for each certificate of \$2,000 and is paid at entrance.

Give amount of annual dues, and how paid. Are these specified in policies or in by-laws? The annual dues on business written prior to July 1, 1883, is 6 per cent. of guarantee deposit (which is \$1.00 for each year of the member's age, for each certificate of \$2,000), and upon the business written since that date it is 10 per cent. Amount is fixed by articles of incorporation and resolution of board of directors.

What is the maximum and minimum amount of the policies or certificates issued on any one life? Give limiting ages for admission. \$6,000—\$2,000. 21 to 50 years (21 to 40 years, \$6,000—41 to 50 years, \$4,000).

Do the certificates, or policies outstanding specify a fixed amount to be paid, regardless of amount realized from assessments to meet the same? Does the association retain the right to scale down claims in case assets on hand and proceeds of next assessment are insufficient to pay claims at maximum amount? The face value of certificates is secured by deposit with the state insurance department and the amount due is provided for by an assessment on the members levied pro rata upon the Guarantee Fund of the association. Payment of the certificate in full is guaranteed by the assets of the association and the right of assessment, but with no promise of dividends, surrender values or endowment features. No right to scale policies is retained.

Is any part of the mortuary or reserve fund, assessments or premiums, used for the purpose of paying any expenses? No.

Does the association issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition, any sum of money or thing of value? No.

Does the association reserve in its by-laws or policies the right to levy extra assessments, and how and when? Upon what basis and manner are your regular assessments or premiums computed? The by-laws authorize assessment of amount required to pay losses. Assessments are levied for such a percentage upon the Guarantee Fund as will produce the amount required to pay death losses.

How are the emergency, reserve or special funds created, and for what purpose, and where deposited? The Guarantee Fund is created by deposits at entrance for the purpose of securing persistent membership. The Surplus Fund is made up of interest collections and forfeitures of guarantee deposits of lapsed members, and is for the purpose of paying any losses which may occur in excess of a rate of ten deaths per annum per thousand members. Securities belonging to the association of a book value of \$3,233,901.71 (par value, \$3,223,247.35) are deposited with the auditor of the state of Iowa as required by law. Loans to the amount of \$28,013.39 are held in the home office of the association. A deposit of \$1,000 has been made with the Missouri insurance department. The balance is in process of collection and investment.

What was the expected mortality, during the past year, on mean amount of insurance in force, according to the actuaries' table of mortality? Expected mortality \$1,842,101.47 according to actuaries' table.

Are the officers and directors elected by the members? Yes. Are notices of election sent to members? Yes. When and how? Annually in March by mail. Are proxies contained in applications? No.

Are there any members or persons having any proprietary or preferred interest in the association; or receiving any part of the expense fund as consideration for money advanced or for guarantee of payment of expenses? No.

Is a medical examination required before issuing a policy or certificate to applicants? Yes. Are policies or certificates issued, or assignments allowed, to persons other than the families, heirs, relatives and dependents, or actual creditors of the member? No.

Has the society paid all its death claims in full, and has it the ability to pay its outstanding claims in full? Yes.

What is the aggregate amount of an assessment or periodical call upon all the policy-holders or members of the corporation or association? The quarterly calls made in 1900 produced \$1,046,393.20 or an average of \$261,598.30 each.

Has the association during the year levied extra assessments on policies paying stipulated premiums, and how much? No. Or increased the basis or rate of assessments to advanced ages when such right is retained? No. Or increased the ratio or number of assessments, the basis or rate remaining the same? No.

MISCELLANEOUS QUESTIONS.

Does the association issue limited or advance payment policies or policies of any kind containing cash surrender, extended or paid up insurance features? Yes.

Are such policies valued by the insurance department of the state in which the association is organized? No.

What is the amount of insurance written in Wisconsin on limited or advance payment plan, including policies of all kinds containing cash surrender, paid up and extended insurance features? \$407,000.00.

Does the association keep individual accounts with its policy holders? Yes.

Give amount of annual dues, and how paid. Are these specified in policies or in by-laws? Amount is stated in certificates by figures and in by-laws by percentage.

What is the maximum and minimum amount of the policies or certificates issued on any one life? \$1,000 to \$10,000. Give limiting ages for admission, 18 to 60.

Do the certificates or policies outstanding specify a fixed amount to be paid, regardless of amount realized from assessments to meet the same? Yes. Does the association retain the right to scale down claims in case assets on hand and proceeds of next assessment are insufficient to pay claims at maximum amount? Certificates specify a fixed amount. Should the amount realized from assessments not be sufficient to meet same the balance required will be paid from the reserve fund.

Is any part of the mortuary or reserve fund, assessments or premiums, used for the purpose of paying any expenses? No.

Does the association issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition, any sum of money or thing of value? No endowments. Make loans on policies as sole security.

Does the association reserve in its by-laws or policies the right to levy extra assessments? Yes. Upon what basis and manner are your regular assessments or premiums computed? Age at entry.

How are the emergency, reserve or special funds created, and for what purpose, and where deposited? Each member pays to the guaranty trust fund on each \$2,000 certificate as many dollars as he is years old. This fund is kept invested in United States bonds. The association agrees to hold net combined ex. 4 per cent. reserve on each policy.

David Parks Fackler, consulting actuary, has certified that reserve for our policies, Combined Ex. 4 per cent. Dec. 31st, 1900, was \$765,273.00.

Are the officers and directors elected by the members? Trustees are elected by members; officers by trustees.

Are notices of election sent to members? Yes; by mail, 20 days prior to meeting.

Are proxies contained in applications? No.

Are there any members or persons having any proprietary or preferred interest in the association; or receiving any part of the expense fund as consideration for money advanced or for guarantee of payment of expense? No.

Is a medical examination required before issuing a policy or certificate to applicants? Yes.

Are policies or certificates issued, or assignments allowed, to persons other than the families, heirs, relatives and dependents, or actual creditors of the member? No.

Has the association during the year levied extra assessments on policies paying outstanding claims in full? Yes.

What is the aggregate amount of an assessment or periodical call upon all the policy-holders or members of the corporation or association? Average, \$46,000.00.

Has the association during the year levied extra assessments on policies paying stipulated premiums? No. Or increased the basis or rate of assessments to advanced ages when such right is maintained? No. Or increased the ratio or number of assessments, the basis or rate remaining the same? Yes.

MISCELLANEOUS QUESTIONS.

Does the association issue limited or advance payment policies or policies of any kind containing cash surrender, extended or paid up insurance features? No. Are such policies valued by the insurance department of the state in which the association is organized? No.

Does the association keep individual accounts with its policy holders? Only if there is any balance either way in the payment of an assessment.

What is the amount of reserve or emergency fund held by the association on account, or to the credit of, Wisconsin policy holders? None. The reserve fund is primarily a guarantee that all the members shall get their insurance in full and only to be drawn upon for the payment of death losses when they exceed the rate of the American Mortality Tables.

Give amount of entrance fee, and how paid. \$6.00 for \$500, \$8.00 for \$1,000.00, \$9.00 for \$1,500, \$10 for \$2,000. Collected by solicitor from applicant.

Give amount of annual dues, and how paid. Are these specified in policies or in by-laws? No annual dues are charged.

What is the maximum and minimum amount of the policies or certificates issued on any one life? Give limiting ages for admission. \$2,000, \$500,000; 18 to 45 years.

Do the certificates or policies outstanding specify a fixed amount to be paid, regardless of amount realized from assessments to meet the same? Yes.

Does the association retain the right to scale down claims in case assets on hand and proceeds of next assessment are insufficient to pay claims at maximum amount? No. Guaranteed partly by the reserve fund and partly by the agreement in the contract with the certificate holder to pay such assessments as are required by the by-laws of the association and as will be sufficient to pay all just claims upon the association. No dividends, surrender value or endowment is allowed.

Is any part of the mortuary or reserve fund, assessments or premiums, used for the purpose of paying any expenses? Yes. Seven per cent. of the total assessment collected are set off to the reserve fund to be used only when the mortality shall exceed the rate in the American Mortality Tables; 80 per cent. are set off to the benefit fund and the remainder to the contingent fund.

Does the association issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition any sum of money or thing of value? No.

Does the association reserve in its by-laws or policies the right to levy extra assessments, and how and when? Yes, in both whenever needed. Upon what basis and manner are your regular assessments or premiums computed? The American Tables of Mortality are used as a basis in fixing the rates of assessments, which are levied according to age at entry.

How are the emergency reserve or special funds created, and for what purpose, and where deposited? Seven per cent. of the assessments collected are set off as a reserve fund. It was created for two purposes, viz.: 1st, for paying death claims when the mortality shall exceed the rate of the American Mortality Tables; 2d, to form a guaranty fund as security for the payment of death losses.

What was the expected mortality, during the past year, on mean amount of insurance in force, according to the actuaries' table of mortality? No mathematical reserve is computed upon the association's policies.

Are the officers and directors elected by the members? Partly. The president, the vice president, the directors and the examining committee are elected at the annual meeting of the members, but the board of managers (consisting of the president, or in his absence of the vice president, three directors and the secretary), the secretary, the treasurer and the medical director are elected by the directors at the annual meeting. The finance committee (consisting of three directors) is appointed by the president at the annual meeting of the board of directors.

Is a medical examination required before issuing a policy or certificate to applicants? Yes. Are policies or certificates issued, or assignments allowed, to persons other than the families relatives and dependents, or actual creditors of the member? Yes.

Has the society paid all its death claims in full, and has it the ability to pay its outstanding claims in full? Yes.

What is the aggregate amount of an assessment or periodical call upon all the policy holders or members of the corporation or association? About \$4,150.00.

Has the association during the year levied extra assessments on policies paying stipulated premiums, and how much? No. Or increased the basis or rate of assessments to advanced ages when such right is retained? No. Or increased the ratio or number of assessments, the basis or the remaining the same? No.

MISCELLANEOUS QUESTIONS.

Give amount of entrance fee, and how paid. Membership fee abolished early in 1897, excepting in the case of some foreign business.

Give amount of annual dues, and how paid. Are these specified in policies or in by-laws? They range according to contract, at \$2.00, \$3.00, \$4.50 and \$6.00 per \$1,000 of insurance, the first-named rate applying to policies issued prior to October 1, 1886; since July 1, 1899, net premiums actuaries' table, 4 per cent. loaded by various percentages to produce gross premium. Some in by-laws; others in rules of board.

What is the maximum and minimum amount of the policies or certificates issued on any one life? Give limiting ages for admission. Maximum certificates or policies, American money, \$50,000; French money, 250,000 francs; English money, £10,000. (Since Jan. 1, 1898, limit \$50,000). Ages 18 to 60 years.

Do the certificates or policies outstanding specify a fixed amount to be paid regardless of amount realized from assessments to meet the same? If so, state how the amount is guaranteed, and whether such guarantee carries with it any dividend, surrender value, or endowment feature. Does the association retain the right to scale down claims in case assets on hand and proceeds of next assessment are insufficient to pay claims at maximum amount? The accumulated reserve or emergency funds, \$9,649,502.20, are a guarantee for payment of claims in full. All policies now issued provide for maintenance of full reserve actuaries' table, 4 per cent. No endowment. No guarantee of dividend or surrender values.

Is any part of the mortuary or reserve fund, assessments or premiums, used for the purpose of paying any expenses? No. If so, what amount and under what circumstances? Certain expenses named in Sec. 1, Art. V, of constitution or by-laws, are paid from moneys received under mortuary calls, but only the net receipts belong to the mortuary fund; none of mortuary or reserve fund can be used for expenses of any kind.

Does the association issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition, any sum of money or thing of value? If so, are the amounts fixed? No.

Does the association reserve in its by-laws or policies the right to levy extra assessments, and how and when? Both. Upon what basis and manner are your regular assessment or premiums computed? Basis of assessment age as determined by contract. Tables based on American and actuaries' tables of mortality.

How are the emergency, reserve or special funds created, and for what purpose, and where deposited? The surplus of the association as determined by the several contracts, together with the "net earnings" of expense funds, are deposited with trust companies or banks and government officials for the payment of the contingent obligations of the association as explained in its constitution or by-laws. All policies now issued provide for reserve on basis of actuaries' table, with 4 per cent. interest.

If association or any insurance department computes any mathematical reserve upon the association's policies, give results, naming table of mortality, interest, and method used. What was the expected mortality, during the past year, on mean amount of insurance in force, according to the actuaries' table of mortality? The association has for several years computed reserve on basis of actuaries' table of mortality, with interest at four per cent., treating the contracts as term insurance, the reserve being on the basis of attained age for the bi-monthly, quarterly, semi-annual or annual term covered by the method of payment. Amount current year, as computed by the association, computing purely assessment business as term insurance according to the periodicity of premium payments, and other contracts according to their terms, \$9,649,502.20; of which \$9,139,351.24, as accrued by the terms of the several contracts, is charged as a liability in the foregoing statement. Expected death loss, actuaries' table, \$3,460,584.20.

Are the officers and directors elected by the members? Directors so elected. If not, how are they selected? Officers elected by directors. Are notices of election sent to members? Yes. When and how? By mail, not more than sixty days prior to annual meeting. Are proxies contained in applications? No.

Are there any members or persons having any proprietary or preferred interest in the association, or receiving any part of the expense fund as consideration for money advanced or for guarantee of payment of expenses? No.

Is a medical examination required before issuing a policy or certificate to applicant? Yes. Are policies or certificates issued, or assignments allowed to persons other than the families, heirs, relatives and dependents, or actual creditors of the member? No.

Has the society paid all its death claims in full, and has it the ability to pay its outstanding claims in full? Yes; the claims not paid at their face were those on policies under which there was fraud in obtaining the insurance, or subsequent violation of contract terms. In 55 cases the age of the applicant was understated in the application and the amount paid upon the claim was, for actual age, the full amount for which the policy holder had paid. On the basis of stated age the amount was \$125,474.00; on the basis of true age, \$112,368.93. It has ability to pay all outstanding claims in full.

What is the aggregate amount of an assessment or periodical call upon all the policy holders or members of the corporation or association? About \$606,555.

Has the association during the year levied extra assessments on policies paying stipulated premiums, and how much? No. Or increased the basis or rate of assessments to advanced ages when such right is retained? On insurance on what is known as the fifteen-year plan, assessments have, during 1899, been made on the basis of the attained age at time of assessment. No change in table of rates. Or increased the ratio or number of assessments, the basis of rate remaining the same? No.

MISCELLANEOUS QUESTIONS.

Give amount of entrance fee, and how paid? 50 cents for each \$500. Mortuary benefit granted; paid by applicant in cash.

Give amount of annual dues to subordinate bodies, and how paid. When and how much of this is transferred to supreme or grand body? Subordinate bodies fix their own dues. A tax is payable to supreme court at rate of 60 cents on \$500, \$1.20 on \$1,000, \$1.80 on \$2,000, \$2.40 on \$3,000, \$2.00 on \$4,000, \$3.60 on \$5,000.

What is the maximum and minimum amount of the certificate or certificates issued on any one life? \$5,000--\$500. Give limiting ages for admission. 18 to 54 years.

Do the certificates or policies issued specify a fixed amount to be paid, regardless of amount realized from assessments to meet the same? Yes. If so, state how the amount is guaranteed; does your insurance contain any dividend feature? By the monthly premiums, the accumulated fund, and the power to levy extra assessments; no dividend feature.

Does the society issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition, any sum of money or thing of value? No. Does it undertake or promise to pay temporary or permanent disability benefits? Yes.

In levying mortuary assessments, are they graded on any table of mortality, or are fixed sums charged without regard to age? Graded. Combined experience tables and 30 American offices (Meech) tables. Premiums paid on age at entry.

Is any part of the mortuary assessment used for any purpose except to pay mortuary claims? Yes. If so, what amount and for what purpose? 5 per cent. applied to the payment of management expenses.

Has the society any emergency or reserve funds? Yes. For what purpose, how created, and where deposited? To pay claims as they arise, created by surplus of premiums after payments of current claims, \$4,448,829.48; deposited in banks or invested in approved securities.

Are the officers, directors or trustees elected at an annual meeting of members? No. At biennial meeting of supreme court.

Is a medical examination required before issuing a certificate to applicants? Yes. Are certificates issued to persons other than the families, heirs, relatives or dependents of the member? No, except fiancées. Are assignments of certificates to other than such person allowed? No.

Has the society paid all its death claims in full, and has it the ability to continue to pay its certificates or policies to the full limit named therein? Yes. All legitimate claims are paid to the full extent thereof, and we can continue so to pay.

Does the society pay any commission or compensation to agents, other than for organizing and resuscitating subordinate bodies? No.

MISCELLANEOUS QUESTIONS.

Give amount of entrance fee, and how paid. According to age at entrance, \$1.50, \$2.50, \$3.50 and \$4.50.

Give amount of annual dues to subordinate bodies, and how paid. When and how much of this is transferred to supreme or grand body? The beneficiary fund pays no dues to subordinate bodies and no amount is transferred to grand body.

What is the maximum and minimum amount of the certificate or certificates issued on any one life? \$250.00 and \$1,000.00. Of these designated amounts, pursuant to the laws of the order, ten per cent. in case of death is retained and placed in the reserve or guarantee fund. Give limiting ages for admission. 18 to 45.

Do the certificates or policies issued specify a fixed amount to be paid, regardless of amount realized from assessments to meet the same? Yes. Does your insurance contain any dividend feature? There is no dividend feature; the amounts are guaranteed by the existing reserve or guarantee fund and by the right to special assessment calls if required.

Does the society issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition, any sum of money or thing of value? Does it undertake or promise to pay temporary or permanent disability benefits? No.

In levying mortuary assessments, are they graded on any table of mortality, or are fixed sums charged without regard to age? According to age at entry.

The monthly assessment levy is based on age of members at age of entrance and divided into five classes: Old classes, 1, \$1.25; 2, \$1.65; 3, \$1.95; 4, \$2.25; 5, \$2.50. New members, 1, 96 cents; 2, \$1.16; 3, \$1.44; 4, \$1.74; 5, \$2.04. New members over \$500.00 paying one half of this.

Is any part of the mortuary assessment used for any purpose except to pay ordinary claims? No.

Has the society any emergency or reserve funds? Yes. For what purpose, how created, and where deposited? The reserve and guarantee funds are for payment of future death losses and are created by interests on loans and are ten per cent. retained from death losses.

Are the officers, directors or trustees elected at an annual meeting of members? No. At biennial sessions of the grand lodge, through and from the delegates to the grand lodge.

If the society agrees not to assess for death losses beyond a certain sum or number of assessments, give all the facts in relation thereto: There are annually 12 assessments made, and if at any time there is not enough realized to pay the death losses, the grand officers are empowered to call special assessments.

Is a medical examination required before issuing a certificate to applicants? Yes. Are certificates issued to persons other than the families, heirs, relatives or dependents of the member? No. Are assignments of certificates to other than such persons allowed? Yes, the member must make application in writing to the grand secretary, signed by himself and witness; the change will then be made on the books and on the certificate.

Has the society paid all its death claims in full, and has it the ability to continue to pay its certificates or policies to the full limit named therein? Yes, with the exception of retaining the above stated ten per cent. of each death loss.

Does the society pay any commission or compensation to agents, other than for organizing and resuscitating subordinate bodies? No. If any such expense is made for any purpose, it is paid by the grand lodge.

What is the aggregate amount of one assessment upon all the members of the society? \$3,818.57, average for 1900.

*One assessment.

Received from members in Wisconsin during 1900: Mortuary, \$1,872.75; expense, \$243.00; total, \$2,115.75.

MISCELLANEOUS QUESTIONS.

Give amount of entrance fee, and how paid. Members are divided into four classes: A, 18 to 28 years; B, 28 to 36 years; C, 36 to 44 years; D, 44 to 50 years. Entrance fee: A, \$2.50; B, \$3.50; C, \$6.00; D, \$8.00.

Give amount of annual dues to subordinate bodies, and how paid. Each member pays \$1.50 in January. When and how much of this is transferred to supreme or grand body? The whole amount, except $7\frac{1}{2}$ per cent collection fees, goes into the treasury at Milwaukee, Wis. All business transacted or managed by board of seven directors.

What is the maximum and minimum amount of the certificate or certificates issued on anyone life? The amount of one assessment, less $7\frac{1}{2}$ per cent. collection fees. Total amounts limited to \$1,000.00. Give limiting ages for admission. 18 to 50, inclusive.

Do the certificates or policies issued specify a fixed amount to be paid, regardless of amount realized from assessments to meet the same? No. Does your insurance contain any dividend feature? No.

Does the society issue endowment certificates or policies, or undertake and promise to pay to members during life, without regard to physical condition, any sum of money or thing of value? No. Does it undertake or promise to pay temporary or permanent disability benefits? No.

In levying mortuary assessments, are they graded on any table of mortality, or are fixed sums charged without regard to age? Fixed sums at age of entry. Members remain in class in which they enter. The several classes pay: A, \$0.75; B, \$1.00; C, \$1.25, and D, \$1.50, each assessment.

Is any part of the mortuary assessment used for any purpose except to pay mortuary claims? Yes. If so, what amount and for what purpose? Seven and one-half per cent. allowed collectors for collecting assessments and dues.

Has the society any emergency or reserve funds? Yes. For what purpose, how created and where deposited? This fund is created by transferring at the end of each year such sums of money remaining in the treasury and not used for paying death losses or other expenses. Also interest on invested funds. The fund is created for future use, but only for guaranteeing death losses.

Are the officers, directors or trustees elected at an annual meeting of members? Yes.

If the society agrees not to assess for death losses beyond a certain sum or number of assessments, give all the facts in relation thereto. No such agreement.

Is a medical examination required before issuing a certificate to applicants? Yes. Are certificates issued to persons other than the families, heirs, relatives or dependents of the member? No. Are assignments of certificates to other than such persons allowed? We have but two certificates which are assigned. We endeavor to discourage all assignments and have succeeded in all but the two cases mentioned.

Has the society paid all its death claims in full, and has it the ability to continue to pay its certificates or policies to the full limit named therein? Yes.

Does the society pay any commission or compensation to agents, other than for organizing and resuscitating subordinate bodies? We pay nothing for organization. We pay for collecting $7\frac{1}{2}$ per cent. of amounts collected. For obtaining new members we pay \$4.50 each, and have paid \$175.00 during the year as a special inducement for obtaining new members.

What is the aggregate amount of one assessment upon all the members of the society? \$675.00.
